Title: RADIATION TRIGGERABLE OXYGEN SCAVENGING

ARTICLE WITH A RADIATION CURABLE COATING

Abstract:

The article includes a first and second outer surface, and a first layer including an oxygen scavenger, the first outer surface including a printed image, and a radiation-curable varnish covering at least a portion of the image. A method includes providing an article including a first and second outer surface, and a first layer including an oxygen scavenger; printing an image on the first outer surface; and applying a radiation-curable varnish on the first outer surface so as to cover at least a portion of the image. A multilayer article includes a first and second outer surface, and a first layer including an oxygen scavenger;

wherein the first outer surface includes a radiation-curable printed image. A method includes providing an article including a first and second outer surface, and a first layer including an oxygen scavenger; and printing a radiation-curable image on the first outer surface.
